

SCHOLAR GREEN PRIMARY SCHOOL

FUNDING FOR PRIMARY SCHOOL PE and SPORTS 2022-23

The government is providing an extra £320 million of annual funding for the academic years of 2022-23. The aim of this funding is to improve the Physical Education (PE) and Sports programmes offered by primary schools, and is provided jointly by various governmental departments, including Education, Health and Culture, and Media and Sport. Although the funding will be allocated to primary school head teachers, it will be 'ring fenced' – this means that it can only be spent specifically on PE and sport in schools.

Purpose of funding Schools must spend the additional funding on improving their provision of PE and sport, though how they do this remains their decision.

This is how Scholar Green Primary School has used the funding in 2022-23:

- Paying for qualified sports coaches to provide extra-curricular school clubs to develop skills in specific sports so that parental economic factors do not impact upon participation.
- Paying for professional development opportunities for teachers in PE and sport
- Increasing pupils participation in inter and intra school sports competitions
- Buying quality assured professional development modules or materials for PE and sport • Purchasing quality resources to support the delivery of school sports clubs and P.E lessons

For the academic year 2022-23, Scholar Green Primary School was allocated £17710 of sports funding. Below you will find a full breakdown of how the sports funding has been allocated and the impact of this.

In the academic year 2022-23, 96% of pupils had passed the National Curriculum Swim Award by the end of Year 6. Covid had a significant impact on the swimming curriculum as leisure centres were shut and lessons were not able to be provided. In the academic year 2022-23, a swimming pool was hired to provide swimming lessons on the school site during the school day and then after school swimming lessons to pupils in receipt of pupil premium, vulnerable pupils or pupils in Key Stage 2 that were still non-swimmers.

Objective	Action	Cost	Impact
