A Disaster Strikes

A huge boat named as the Titanic has sunk. Made in Belfast, the reason it **sunk** was because Captain Edward John Smith went for a nap at 9 pm. The Titanic set off at Southampton stopped at places named as France and Ireland. It was trying to head to New York, 1517 people died, the things that were on the Titanic

Were ten decks, Turkish baths, swimming pools and more than you could ever eat. The Titanic hit a huge ice berg and **snapped** in half. Today is a very sad sad time, many people have lost a family member.

✓ Facts.

✓ Great headline.
